

Mr. Congressman.

As leaders of the free world, i feel betrayed to the fact that you are triying to limit the xm broadcast, the one thing that has kept our contry in the forefront of free trade and capitalism, is the fact that we have an enviroment were prodiucts and services can compete freely, this always benefits the end consumer, the voter never forget this.

Your duty is to serve our calling, this is my calling I want my XM service to freely offer me as much as posible do not limit this ability.
